

MATCH MY MAKEUP

HOW TO SEND US YOUR SAMPLE

It's simple! Follow these steps:

1. Find a small clean jar or a snap close bag (something that can hold liquid or powder without spilling).
2. Put in 4 -5 pumps (5mls) of your foundation, if liquid. If a loose powder, put in a small levelled teaspoon.
3. **If you currently mix foundations, put each color in a separate jar/bag and in the third, your mixed color.
4. Print this page out, fill in your details to the right and send it with your sample(s).

When can you expect to receive your matches?

You should expect to receive an email with your matches in 2 -3 weeks.

What happens to your sample?

Once we receive your sample, we will put it through our matching process!

- First we run the sample through special machines that break down the colors to its core pigments;
- Next, it goes to the mathematician to analyze the reflectance, shimmer, moisture, sheerness, opacity etc of the foundation.
- Finally it goes to the team of makeup artists who verify every match under a light simulator that simulates office lighting, candle light, daylight.

Your Sample Details

Name: _____

Email: _____

Are you mixing foundations? If so, please make sure you have included 3 sample jars clearly marked with the details below for each sample.

Brand: _____

Product: _____

Shade name/#: _____
